Summer 2020

Greetings from the CEO

Dear costumers and partners,

The first half of 2020 has in many ways been an eventful and hectic time for Weiss

On December 20 Weiss was, as you know, bought by Linka Energy and yours truly became part of the co-owners of Linka.

Weiss became part of Linka Group, together with Linka and Jernforsen in Sweden, and is now a competent partner to the costumer segment, Biomass og WtE

We are right now at the stage of integration where the inter-departmental skills and synergies are being implemented into the 3 organisations.

We have also hired a sales manager (as described under new employees) as part of our new strategy. He started at full speed, and has already visited quite a few costumers.

In the beginning of the year covid-19 hit the whole world and Denmark was closed down i marts, which definitely has presented us with challenges. Weiss wasn't hit too hard though and we have been able to serve our costumers almost to a full extent.

These next 3 months we are steaming ahead with lots of tasks for our costumers both nationally and internationally, and we really appreciate all of our good and loyal costumers.

I wish all of our costumers and partners a great summer full of qualitytime with family and friends.

Sincerly Kenneth Iversen

New logoes

As part of our incorporation into Linka Group, We've had a team of grafic designers take a look at our logoes, It has resulted in some great new logoes which in the futu- re will be connected with our Weiss logo.

Keld Adzersen

Mikael Larsen

Caspar Rasmussen

New employees at Weiss ApS.

We are growing, and this year we've added 3 new people to our team. In february we hired Keld Adzersen who will be working in project support. In May our new designer, Mikael Larsen arrived. He will primarily be working from our office in Hadsund where he will be concentrationg on project design, internal sales and costumer support. In June we hired Caspar Rasmussen. Caspar is our new Sales Manager and he will be working inter-departmental within Linka Group.

We are happy to welcome all 3.

Weiss ApS,
